April 10, 2020

Good Afternoon,

It was nice speaking to many of you today. I would like to begin this update by saying thank you to all of our family members for being so understanding and helping us all get through these unprecedented times. Please know that we are doing everything possible and within our control to keep our residents safe from the coronavirus, or COVID-19. We currently do NOT have any confirmed or suspected cases of COVID-19 in our Home, and hope to keep it that way! We are continuing to screen all of our employees upon their arrival to the home prior to granting them access to the units. We are also following all of the recommended infection control practices from the Centers for Disease Control (CDC) and the Ohio Department of Health (ODH).

We are also following the Governors orders in regard to large groups, and are therefore not using the auditorium, dining rooms or the therapy room. All activities, therapies and meals are taking place on the units in very creative ways. I have to commend our staff and their willingness to change and adapt through all of this. We have made many changes in our Home and have had to adapt to many new rules in the last 30 days, which is never easy for anyone. They have pulled together and done an outstanding job! While we are restricting the residents to their specific floor or unit, we are allowing them to move about freely on their floor. We are doing this to limit the exposure if the virus does get into our Home. Our staff is wearing masks at all times while in the home. Again, this is to protect our residents.

We will continue to work through these changes day by day. I wish I could tell you a date that we would lift our visitors restrictions, but I do not have that information. Please know that the sisters and Mother are all saying extra prayers for our residents and families. We are all blessed to have them working so hard to help take care of our residents. We hope you all have a blessed Easter and enjoy this time with family.

Thank you,

Jenny Nijak, LNHA

Administrator
