May 1, 2020

Good Afternoon,

Just a quick Friday update for all of you. We remain COVID-free as of today! We continue to feel blessed and celebrate with our residents here at Little Sisters. We have had a number of employees tested for the virus, due to a symptom or two, but they have all come back with negative results. We continue to be diligent about screening all employees as they come into the Home, wearing our masks and keeping our social distance as best we can. We are also continuing to monitor all the residents' temperatures and respiratory status each shift. As mentioned in our last update, we have had a couple residents go to the hospital, but their tests have also come back negative for COVID-19.

If anyone is interested, we are asking families and volunteers to make signs for their friends and family members here at Little Sisters. We would love to hang signs in the resident rooms and in the hallways on the units. We thought it might bring some joy to the residents and staff too. We try to always say thank you and appreciate our staff – we are so lucky to have such dedicated employees here at Little Sisters. If you make a sign or poster you can drop them off at your convenience in the foyer, or the main entryway of the Home. We will make sure that they get to the correct unit or room. Please put the resident's name on the back of the poster/sign so we know where it belongs. If a sign is for a specific floor, please put the floor number on the back so we know where it belongs too.

Thank you for all of your support through this difficult time. We know that you are all missing seeing your loved ones, but we are doing our job taking care of them and keeping their spirits high. We are giving them all a little extra love for you too! We will continue to send you all updates as things change here at Little Sisters, and look forward to the day you are all able to come back and visit with your family and friends.

Thank you all for your support,

Mother Marie Edward & Jenny Nijak, Administrator
