Tuesday, December 15, 2020

Good Evening,

I am excited to share with you all that we have been scheduled our COVID-19 vaccination clinic on Monday, December 21st. This clinic will be held by CVS Pharmacy, and will be offered to all staff and nursing home residents. To prepare for this, we will be contacting residents, family contacts and staff to obtain consent prior to the actual clinic date. There is a lot of work on our end, but we are happy it has arrived and I, for one, am thrilled we are able to receive it.

There has been a lot of activity here at our Home over the past week. I wanted to share some numbers with you all tonight. Since November 19th, we have had 17 residents test positive for COVID-19. Of those 17, 9 have recovered and moved back to their rooms, and sadly 2 have passed away. Today we have 6 residents in our Nest, or COVID unit, 3 of which are currently in the hospital. We continue to be diligent about stressing the importance of wearing our protective equipment so as not to spread the virus further in our Home.

We continue to test our staff twice a week and are currently testing our residents at least weekly if not more often. Anytime a resident or staff member exhibits any signs or symptoms, we are conducting a rapid test to check for COVID. We are working hard to stop the spread of the virus and limit any exposure throughout the Home.

Please feel free to contact me at your convenience if you have any questions at all. I would be happy to answer your questions, or just discuss all that is going on with our Home right now. Thank you all for your trust and support during this difficult time here at St. Paul's home.

Thanks,
Mother Marie Edward & Jenny Nijak, Administrator
