

Good afternoon,

The weather is beautiful, and the residents have been enjoying some quality time outside this week. Just wanted to give you all an update of things happening here at Little Sisters. We had three employees test positive for Covid-19. These employees are at home self-quarantining and will not return until they are permitted according to our guidelines. I have spoken to many of you as I have been scheduling the visits with family and friends and have tried to continue these visits for you all. We did cancel visits for Monday, but proceeded to test all residents and staff. All those tested at this point have been negative. We moved our visits outside today, which was perfect with the great weather. We will complete testing this evening and will again continue our visits tomorrow morning. We will continue to test employees and residents to ensure no additional positive test results.

As we say goodbye to Sarah this week, we will make another transition for the scheduling of our visits. Darla Freeman will be assuming the role of scheduling our family visits. I have attached her information for you to contact her when making a reservation for a visit. As a reminder, please give us at least a 24-hour notice when scheduling the visits. We have many people interested in visiting and we want to be able to accommodate as many as we can.

Thank you so much for your patience as we continue to work through the many issues that come with this pandemic. We have an incredible group of family and friends that have supported us over the past year, and we truly appreciate all of you. It has been a long year, in many ways, but we continue to work toward a more normal life for all the residents and staff here at St. Paul's Home.

Sincerely,

Mother Marie Edward & Jenny Nijak, Administrator
