

August 24, 2021

Good afternoon,

A quick update to let you all know that we had another employee test positive, and we are considered in an outbreak at our home. We do not believe these two recent cases are related at all, as one employee was out of the state for vacation when they became ill. Thankfully our staff has been wearing N95 masks and face shields, to help stop any spread of the virus. The employee is currently at home and will return following the mandatory quarantine. Testing has taken place with residents and staff to ensure we have no additional positive cases. As the positivity rate in Hamilton County continues to rise (8.8%) we may see additional cases with our staff. We will continue to do regular testing of our staff and residents to ensure we do not have additional cases. If you have any questions, please let us know.

Thanks,
Mother Marie Edward & Jenny Nijak, Administrator
